

NUVOCOTTO[®]
TIMELESS TERRACOTTA

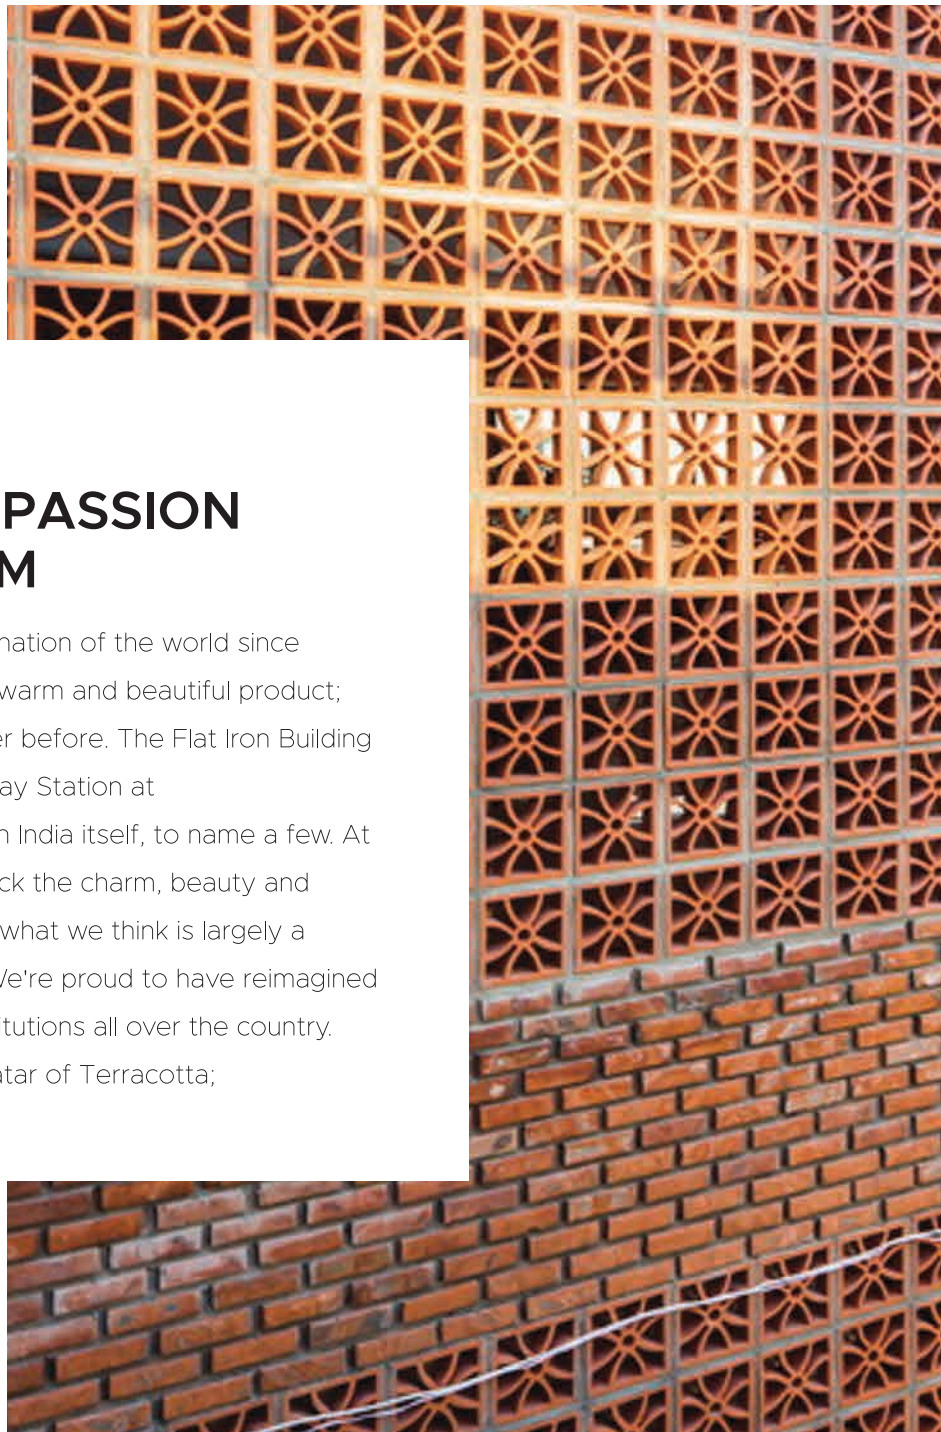

Stay Creative
Stay Sustainable
with Terracotta

Jaalis • Floor Tiles • Wall tiles

BORN FROM A FIERY PASSION TO TRANSFORM

Terracotta has caught the imagination of the world since time immemorial as an earthen, warm and beautiful product; that transforms spaces like never before. The Flat Iron Building in New York to St. Pancras Railway Station at London and countless temples in India itself, to name a few. At Nuvocotto, we want to bring back the charm, beauty and sheer simplicity of terracotta to what we think is largely a monochrome world of design. We're proud to have reimagined countless homes, cafes and institutions all over the country. Come fall in love, with a new avatar of Terracotta;

THE BRICKY WALLS

As the idiom says, let us build our wall "brick by brick". Nuvocotto Wall Tiles brings the brick effect effortlessly. The texture, the material and the character in a thinner format grants flexibility.

Nuvocotto Wall Tiles are more consistent and easy to install on any wall and instantly give you a look and feel of the brick wall. This wall can be a canvas for the cartoon in the kid's room and the favourite motivation quote on the office wall. When used in the exterior, the building becomes a landmark "Let's meet next to the Red Brick Building"

The flexibility and capacity of mass production make the Nuvocotto wall tiles a pick for designers and construction terms alike.
