600x1200mm

Black, the color of mystery, elegance, class, and sophistication. This color has a variety of hues and depths, unlike any other color. When looking to add style and class to your space, choose black tiles. This color is all about possibilities and potential. Thus, bring a lot of positivity and optimism in your space by choosing black-hued tiles for your offices, commercial spaces, bungalows, huge apartments, and villas.

Installing these tiles lends a classy appeal. The gleaming and polished tiles look beautiful in any space. Complement it with light-colored walls and stylish furniture to accentuate the overall look and décor of the space.

Solid color black tiles or those with light graphics can create a neutral, yet appealing floor that can enhance the colors of the walls and optimize the furniture and accessories that complete the room

Infinite combination

The theory of colors tells us about the rules of analogy and complementarity, about how color emerges from nature when tint, tone and shade come into play. It also tells how our perception of a colored surface varies depending on the other colors that are associated with it.

This is what we have considered in the design of Sparten Cloud. The result is an organic set of colors, that can stand by themselves or that can be harmonically blended in infinite combinations.

A wide range of options for interior and exterior applications, in residential, commercial, work or public spaces.
