

EDAN JAALI

Edan Jaali is special one in Greek Collection, because it can give your seamless or frame less continuation horizontally. Edan Jaali cannot be used to mix and match with other patterns as the size is different vertically.

Size: 300 x 200 x 100 mm

Weight ~ 5.3 Kg

Available Color: Natural Terracotta

Requirement Per Sft: 1.5 Nos

Edan Jaali is the most unique one in the Greek collection. The thickness of the jaali is 100 mm, which is almost 4 inches, making the base 300 x 100 mm. The flat bottom enables the Edan jaali to have a stable base thereby aiding the construction of standalone structures. The requirement of Edan jaali is only 1.5 Nos Per Sq. Ft i.e., 150 Jaalis would be sufficient for 100 Sq.Ft. This unique Jaali is definitely a canvas for creative minds to unleash their forte.

AMBER JAALI

Amber Jaali is a pattern closer to the nature. It resembles the flora and brings the freshness of nature to the design. Amber Jaalis can mix and match with all designs.

Size: 200 x 200 x 60 mm

Weight ~ 2.3 Kg

Available Color: Natural Terracotta

Requirement Per Sft: 2.25 Nos

The Amber Jaali, that resembles a flower captured in a brick, is an absolute favourite and the ideal choice of landscape designers. Sunlight passing through a garden wall built with the Amber Jaalis, blended with the fragrance of the flora, makes it a perfect design idea for any nature lover.

Design Tip: All terracotta jaalis can be painted. It is recommended to use a primer before painting the Jaalis.

GARNET JAALI

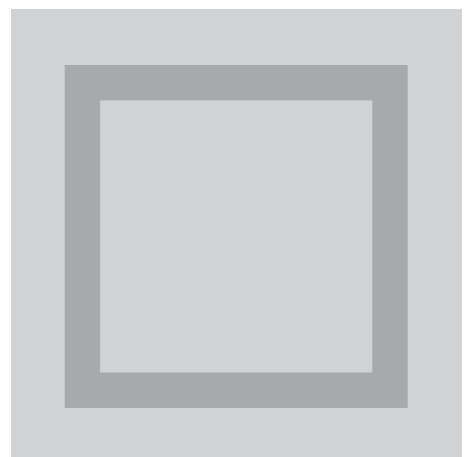

Garnet Jaali is the most minimalistic of all. If it's a minimalistic design and need good lighting in design. Garnet Jaali is the ideal choice. Garnet Jaali have great creative potential depends on your imagination.

Size: 200 x 200 x 60 mm

Weight ~ 1.7 Kg

Available Color: Natural Terracotta

Requirement Per Sft: 2.25 Nos

Garnet Jaali is a simple square frame, making it the most versatile among the Greek collection. It is of the standard jaali size: 200 x 200 x 60, with the possibility to customise creative designs with other available jaalis of both Greek as well as the Classic collection.

Use the Cavity of this unique jaali to experiment with different out of the box ideas be it glass, wood or anything of your choice.

Recommended Combinations: TV Jaali & Sapphire Jaali.

TV JAALI

TV Jaali is a pattern closer to the nature. It resembles the flora and brings the freshness of nature to the design. TV Jaalis can mix and match with all designs.

Size: 200 x 200 x 60 mm

Weight ~ 1.9 Kg

Available Color: Natural Terracotta

Requirement Per Sft: 2.25 Nos

Though not new to the family of Jaalis, this time-tested design is inspired from the most popular choice of Jaalis in Indian architecture. Almost two decades ago, we called this design TV Jaali, and the name was widely taken over by the whole industry. This popular Jaali is introduced in the Greek Collection, solely because of the demand of its creative design usage when assorted with other Nuvocotto Jaalis.

Design Tip: Design it along with Garnet Jaalis to have a perfect blend of lines and squares.

TOPAZ JAALI

Topaz Jaali is the most minimalistic of all. If it's a minimalistic design and need good lighting in design. Topaz Jaali is the ideal choice. Topaz Jaali have great creative potential depends on your imagination.

Size: 200 x 200 x 60 mm

Weight ~ 2.5 Kg

Available Color: Natural Terracotta

Requirement Per Sft: 2.25 Nos

The unique design of topaz jaali with a square, a circle, and a diamond pattern makes it a versatile Jaali and contributes aesthetically to most of the design styles. Topaz Jaali has more of a closed composition, making it an ideal option for added privacy.

Design Tip: Design Topaz Jaali along with Garnet Jaali for a distinct output.

JADE JAALI

Jade Jaali is the most minimalistic of all. If it's a minimalist design and need good lighting in design. Jade Jaali is the ideal choice. Jade Jaali have great creative potential depends on your imagination.

Size: 200 x 200 x 60 mm
Weight ~ 2.2 Kg
Available Color: Natural Terracotta
Requirement Per Sft: 2.25 Nos

The Cosmic Connection - The inspiration for this design is 'the galaxy'. The intertwining of oval shapes resembles the orbits of planets. The solar system always fascinates us with the perfection of its trajectory and perfectly planned motion. Jade jaalis add balance to the design that it is part of, and is a perfect option for designers to innovate and create.

Design Tip: Design it with Classic Jaalis like Opal Jaali or Four Petal Jaali.
