

South India Tiles symbolizes the evolution of porcelain and ceramic tiles, focusing on the luxury segment in their collections. We pride ourselves on having extensive working knowledge of both industry standards and design trends. Our showroom features a curated selection of the highest quality products from around the nation, which we pair with complimentary design services by highly trained and professional interior designers. Our goal is to elevate your space and provide a thoughtful, personalized experience

Under one dach, we offer a wide range of brands. In our carefully designed shop atmosphere, we promise to offer you the newest designs and fits for tiles. The product range available at our studios involves all of the senses thereby allowing the user to enjoy personal spaces that offer a new sense of well-being. Our inspiration abounds. Choose among thousands of patterns inspired by nature. Choose the wood, marble, antique, textured, natural, modern, and more from numerous looks. Choose from glazed to glossed, matte to rustic, and many more tile finishes. Welcome again, to the world of innovation!

V I S I O N

It is the winds of change that reassure the concepts that make us pioneers.
PARKLAND Series able to withstand the wear and tear generated by constant use.

After all our creations, we believe even more in
our work and what we have accomplish. What we were.
From a strategic position to a solid growth. What we have become
with the design, management and production developments.
We are a new generation. We are the fusion between the past
and the present with future solutions, with the same quality,
the same strength. Together we are more innovation,
more creativity.

Mixed Laying Suggestions

Laying Instructions

Before laying (of) ceramic material, you should take the following aspects into account:

- Check if the ceramic material is suitable for (use at) the selected site, according to its specifications and technical characteristics;
- Check whether there is enough material to conclude the work;
- Check the boxes to see/confirm in the boxes if the product is in the same shade, choice and caliber.

The good performance of the ceramic material depends strongly on the conditions of application for which it is extremely important to ensure the following assumptions:

01 BASE

The base must be stable, free of debris, dust and cracks. Curing times and stability of the treatments to which the support may have been subjected should be respected. You should check its flatness and stabilize it, if necessary with the help of products suitable for the purpose.

02 MATERIAL

For a better visual effect of the product, it is advisable to use alternating ceramic pieces taken from various packages simultaneously. If the product has shade variations or has different graphics and shades, it should be applied randomly.

03 JOINTS FOR TILE-LAYING

For a perfect application of the ceramic pieces, you should definitely use joints. They fulfill important aesthetic and technical functions, facilitating alignment of the materials, absorbing any possible deformation liable to be felt in the structure thus preventing the transmission of deformations to the ceramic pieces.

04 PACKAGING WASTE MANAGEMENT

Packaging Waste (cardboard) should be placed in locations available for recycle, namely in Eco points or adequate systems.
