PRO•SURFACE
ZERO REFLECTION

with

FEATHER  **FEEL**

An evolution of research on raw materials that results in a change of consistency in the body mixes and more uniform compositions, including in cross-section of the carving produced with digital technology, guaranteeing naturalness and aesthetic appeal in the most restrictive specifications.

This tiles are produced by pressing mixtures of naturally coloured raw materials with the inclusion of micro-pebbles, grits and chips that match the colour and structure of the product's surface.

An Impressive
commitment
to harmony
and

balance
